Interior - Exterior / Primed Trimboards

Email: info@itichile.com

10 Reasons to use ITI Primed Trimboards

1. Produced from sustainable and managed RADIATA PINE plantations.
2. Radiata pine is a proven and accepted building material globally.
3. An ALL WOOD engineered, finger-jointed/edge-glued, clear and defect-free product.
4. Finger length 6 mm. It ensure high resistance joints. Joints stronger than the wood it self.
5. Uses an exterior glue system. PVA (Polivinil Acetate). Certified to pass durability D4.
6. Double coat priming.
7. Paint Acrylic Latex for Exterior Use.
8. Our primers are compatible with both quality water based and oil based paints for top coating.
9. Buffing after every coat for smoother finishing. Ready for a Top Coat.
10. All produced under a thorough Quality Control system that monitor every stage of production process.

Fe - Nom

Also available 1x4 / 1x6 Tongue & Groove profiles

Product Specifications

545 boards: Smooth four sides.			5152E boards: 1 smooth 1 rough face.
